

2. Secure Partner Contributions

Since 1985 the Foundation has secured over \$2.5million in contributions that have supported delivery of many conservation projects. A summary of projects and partners is appended.

The Rottnest Foundation is an independent not-for-profit organisation incorporated under the Associations Incorporation Act 2016 (WA). We are endorsed by the Australian Government as an Environmental Organisation and hold Deductible Gift Recipient status. All donations to the Rottnest Foundation are tax deductible.

We collaborate with all bodies associated with Rottnest Island including the Rottnest Island Chamber of Commerce; island volunteer groups; Wadjemup Aboriginal Reference Group; Reconciliation WA; State and Federal Governments and our local Western Australian community.

We are seeking greater engagement with corporate and philanthropic sectors. This builds on our successful partnership with BHP in delivering the Wadjemup Bidi trail network. The Island offers opportunities for partners to achieve environmental and social responsibility priorities through projects.

Key activities to expand our engagement with partners include:

- Develop and implement a partner engagement strategy
- Appoint a project and partners position
- Deliver benefits according to partner agreements
